1. Welcome

Sarah welcomed everyone to the meeting and thanked them for attending. She explained that she had invited someone from BT to attend however they declined the invitation. Steve passed round some information sheets relating to Broadband (enclosed).

2. Broadband Options

Carolyn gave a presentation of the different Broadband options and the technical issues that effect each option. The cost implications also vary widely. Enclosed is a copy of the presentation and it was agreed that we should have a Broadband Action meeting to see how much interest there is and how we can move forward.

There were many suggestions including a video and petition signing to be held at the forthcoming Gala. Chris agreed that as he would be having an IT stall at the Gala it would be appropriate to have this on his stall.

3. Next Meeting

It was agreed the **Broadband Action** meeting would be held on **Thursday 15th July at 9am** in the **Reading Rooms**. The meeting will be open to anyone who has an interest in obtaining Broadband.
